KRAEMER

"S-HD" TYPE DUST COLLECTORS

Powerful, portable, and ready to work for you, the S-HD series portable dust collectors will make your shop a cleaner, healthier, more productive environment. A forceful 5-15 hp motor provides from 2000-4950 cfm @ 4" S.P. Its compact size and powerful performance are ideal for most small shops, overall height 125" x 58"lg x 30" wide.

The S-HD comes with eight 1 micron top bags. This bag captures tiny 1 micron dust particles. You no longer have to deal with fine dust building up around the dust collector. The bottom drum is a large 55 gallon plastic drum capacity. The magnehelic gauge on the front control panel lets you know when the filters need to be tapped clean. The S-HD has a sturdy steel base with four easy gliding HD wheels make moving from machine to machine a breeze. The motor available in 220/460/575-volt comes prewired with 25 ft power cord. The S-HD includes Heavy duty cast aluminum fan and wheel and is connected with quick release clamp ducting.

Keep your shop clean with High Performance Dust Collectors.

- 1 micron efficiency
- Available from 5 to 15 hp models from 2000 CFM to 4950 CFM
- Up to 4" static pressure
- Compact size only 125" tall
